1. HISTORY

Chess was introduced to FISU in the early nineties as a natural consequence of its esteemed reputation within academic circles, and the events have consistently enjoyed great success. The inaugural editions were held in Odessa (Ukraine, then part of the USSR) in 1990 and in Antwerp, Belgium in 1992. However, these two competitions faced a significant challenge as they were not included in the calendar of the Fédération Internationale des Échecs (FIDE). Consequently, performances in the World University Chess Championships were not recognised for titles such as International Master or Grandmaster.

During the 1994 edition held in Sofia, Bulgaria, the FISU World University Chess Championship was duly recognised for its significance. This time, the results were officially recorded by FIDE, meaning the competition was formally acknowledged and included in the events linked to FIDE's international titles. The FISU Championships had attained such a high standard that any other outcome would have been surprising. In accordance with FISU regulations and the specific nature of the competition, both men's and women's championships were structured as individual tournaments consisting of nine rounds, following the Swiss system. In addition to the individual contests, an inter-team ranking was determined by aggregating the results of the two best-performing men and women from each team. At the conclusion of the matches, three men and three women were awarded International FIDE titles.

The 1996 edition in León, Spain, also conferred the rank of International Master upon two men and one woman. The prestigious status of the FISU World University Chess Championship was reaffirmed at its fifth edition in Rotterdam, Netherlands, in 1998, which featured the participation of four Grandmasters, sixteen International Masters, and fifteen FIDE Masters in the men's competition. Among women, there were eight Grandmasters, three International Masters, and six FIDE Masters. It was a remarkable success.

Building on this impressive achievement and the high level of participation, two additional editions of the World University Chess Championships were held: the first in Ulaanbaatar, Mongolia, in 2002 and the second in Lagos, Nigeria, in 2006, where only eight nations participated. Further success followed at the World University Chess Championship in Novokuznetsk, Russia, in 2008, as well as in Zurich, Switzerland, in 2010. In 2011, chess made FISU history with competitions among the world's top university players at the World University Games Summer (previously known as Universiade) in Shenzhen, China. The last two editions of the FISU Championship in Chess were organised in Abu Dhabi, UAE, in 2016 and in the city of Aracaju, Brazil, in 2018.

In 2020, chess was combined with bridge for the inaugural FISU World University Championship in Mind Sports, which took place online due to the Covid-19 pandemic. The event was organised by the committee in Bydgoszcz, Poland. The first presential edition of the FISU Championship in Mind Sports took place in Antwerp, Belgium, in 2022.

The 2024 edition was held in Entebbe, Uganda, showcasing exceptional talent in Chess and Bridge, with students from around the globe demonstrating strategic prowess and mental agility. The event counted on the 61 athletes from 12 different countries, highlighted the rising skills of young minds but also fostered international camaraderie.

11. SERVICES

The Organising Committee should provide a variety of services for the event, including:

- Ice
- Laundry
- Wi-Fi

11.1. ICE

The supply of ice is one of the most common requests from participating delegations, particularly for injury treatment and recovery purposes.

- The Organising Committee must supply ice for treating injuries during both practice and competition, as part of the medical coverage for the event. It does not cover large quantities of ice needed for recovery treatments, such as cryotherapy.

The Organising Committee secure a reliable ice provider on standby, anticipating the request from teams and establishing clear procedures for ice procurement, including pricing and how to access this service

11.2. LAUNDRY

Laundry services are essential for many sports, particularly in long-duration competitions and team sports, where athletes may require frequent changes of clothing.

- Laundry services must be provided in all Team Sports Championships and in all sports with more than four competition days.
- Self-Service or Full-Service Laundry can be considered (hotel/accommodation and external services included in the latter)

Self-Service is the preferred option, giving more flexibility and control to the teams. If not, it is important to negotiate reduced pricing and adjust the timing for collection/delivery of uniforms with the provider

11.3. WI-FI

Wi-Fi is an essential service for university students, as it serves as a critical infrastructure that fosters communication and supports their academic responsibilities.

- Participants can easily access real-time information about event schedules, results, and updates. This allows them to plan their day effectively, ensuring they don't miss out on key events and activities.
- Participants can engage with live broadcasts, social media updates, and other digital content related to the event.
- For many students, academic responsibilities continue even during events. Wi-Fi connection ensures they can access study materials and educational resources, maintain communication with professors, and keep up with online courses.

Wi-Fi should be provided free of charge for all participants at the event, both at the accommodation sites and at the competition venues
