The “Fédération Internationale du Sport Universitaire” – “International University Sport Federation” (FISU) is ruled by Statutes, completed by the present Internal Regulations according to Article 1 of the Statutes and Articles 60 seq of the Swiss Civil Code.

Article 2

The registered office of FISU is established in Lausanne, Switzerland.

MISSION

Article 3

Within the framework of its mission, the International University Sport Federation (FISU) shall, among other things, act against the use of substances or conduct prohibited by the International Olympic Committee (IOC) and by the international sports federations (ISF), in conformity with the anti-doping Code of the World Anti-Doping Agency (WADA).

MEMBERSHIP APPLICATION – ADMISSION – UPDATING – SUSPENSION – EXCLUSION

Article 4

Active members - The organisations that wish to be affiliated to FISU as active members shall be invited by the FISU General Secretariat to compile a dossier entitled “membership application”.

Article 5

The membership application shall contain the following items:

- a) the official form comprising:
 - the official denomination of the organisation;
 - the address of the registered office of the organisation;
 - the names of the President and the General Secretary (or officer in charge of the administration) of the organisation;
 - the list and exact denomination of universities, the number of students, the number of students practising sport in the country, the number of individual members of the organisation;

- a short report on the relations of the organisation with:
 - o public authorities
 - o the National Olympic Committee
 - o National Sports Federations
 - o the National Union of Students

- b) the statutes of the organisation,

- e) a certificate issued by the National Olympic Committee certifying that the organisation is the authentic and officially recognised representative of university sport in the country.

Article 6

FISU can accept only one representative organisation per country as an active member, the notion of « country » corresponding to that accepted by the International Olympic Committee. The organisations listed below, when they represent a country, may affiliate to FISU:

- the national university sports organisation, provided it actually groups together all the university student sportsmen and sportswomen of the country.
- the national union of students, in the absence of a national university sports organisation.

When there is neither a national university sports organisation nor a national union of students, a coordinating body set up by the university sports bodies of the country, or, failing this, by all the student groups in the country, may affiliate to FISU, provided that it is officially recognised by the governmental authorities and the NOC of the country.

Article 7

7.1 When the “membership application” dossier is complete, it shall be submitted to the Executive Committee. The documents shall be examined and the Executive Committee shall assess whether the organisation fulfils the statutory and regulatory conditions.

7.2 Each active member shall ensure the compliance and updating of its membership records every four years, mentioning to FISU all the changes that may have occurred in the NUSF as well as in its university and sports environment, updating the composition of its executive board, and presenting the list of activities, achievements, participations and organisations that it has actually carried out over the period under consideration (particularly in the framework of FISU). The membership record update shall be submitted to FISU and examined by the EC at least four months before the meeting of the General Assembly, which shall confirm accreditation.

Article 8

8.1 Admission - The admission of new member organisations as active members of FISU shall be proposed by the Executive Committee; it shall be ratified by the next General Assembly to become effective. In any case, the General Assembly shall have the power, in its discretion, to accept or refuse an application for membership or a confirmation of the accreditation of those active members who, completing their four-year accreditation period, have not submitted a membership record update, or submitted a document that was not considered satisfactory by the Executive Committee.

A summary of the dossier, as well as the result of the investigations made by the Executive Committee, shall be on the detailed agenda of the General Assembly.

In exceptional and justifiable cases, the Executive Committee may decide to take into consideration other membership applications, at the very latest on the day preceding the General Assembly.

8.2 Suspension and exclusion - Suspension shall be decided by the FISU Executive Committee and placed on the agenda of the next General Assembly. Exclusion can only be decided by the General Assembly.

Suspension is effective immediately upon notification to the active member organisation of the decision of the Executive Committee. The notification shall indicate the reasons for the suspension, and the shortcomings which need to be remedied for the suspension to be removed by the Executive Committee or the General Assembly. The suspension entails loss of all benefits related to membership of FISU and the prohibition for the relevant organisation to invoke its membership of FISU, for the duration of the suspension.

8.3 The suspension ends either by its removal following the finding by the Executive Committee or the General Assembly that the causes that led to the suspension have disappeared, or by its transformation into exclusion, which can be pronounced only by the General Assembly at the qualified majority provided for in Article 3.3 of the Statutes. In the event that such a majority could not be achieved the suspension ceases to have effect.
