Call for Candidatures - 2020 FISU World University Championships

Dear Member Associations,
Dear friends,

Every two years, FISU organises World University Championships for the sports accepted by the General Assembly and the Executive Committee. We are pleased to officially launch, by this letter, the candidatures for the 2020 FISU World University Championships as well as for the first time, for the Combat Sport and the Mind Games clusters.

You will indeed note that the World University Championships programme has recently evolved and you will find in attachment the different events opened to candidature. Should your association be interested in organising a Championship or a cluster in 2020, the FISU World University Championships department will be pleased to send you the guidelines to be followed in order to submit your bid.

According to the procedure in our regulations, we remind you that only a Member Association of FISU can submit a candidature dossier. Any candidature submitted to FISU with all completed documents until 29 September 2017, at the latest, will be analysed by the Technical Delegate concerned and by the WUC Evaluation commission.

Accepted candidatures will be invited to present their bid to the mentioned commission in October 2017. This presentation, together with the previous evaluations, will define whether the bid will be submitted to the Executive Committee, whose decision will be announced on 1 December 2017.

We draw your attention on the necessity to produce all letters of commitment and we remind you that any candidature must be accompanied by a guarantee of 500 EUR in order to be taken into consideration.

In advance, we would like to thank all Member Associations for their contribution to the development of FISU and to the success of the 2020 season.

Awaiting the pleasure of reading your bids soon we wish you a good and happy holiday season.

Kind regards,

Eric SAINTROND
Secretary General/CEO
