### [Coaching staff of the Czech team at the WUBC](#)

The Czech Republic knows who will lead its university baseball team at the WUBC 2008. The Head Coach will be Arnošt Nesňal, who has led the team in position of the National Team's Manager since 2006. His coaching team will join Richard Kania, who has also worked by the national team for three years. Radek Procházka and David Fiala (pitchers' coaches) and David Winkler – general management of the team – will introduce themselves among the coaching staff for the first time. The Czech team is highly ambitious on the home front. The WUBC is the top event for the younger generation of Czech baseball players. New faces will appear in the team, who will definitely want to show their best in front of the Czech spectators and will aspire to reach the best performance at the WUBC (5th place in Chinese Taipei in 2004).
