Brno and Ministry of Education support the WUBC

The traditional exhibition game on May 8th in Brno was an opportunity for meeting of the organizers and important personalities. A delegation from the City of Brno took part at the event and was lead by the Mayor of Brno - Roman Onderka. The whole Championship is played under the patronage of the Mayor, who has supported the preparations of the WUBC and stressed the city's support to sport in his speech. The Deputy Minister of Education, Youth and Sport - Jan Kocourek wished good luck to the Czech team and to the whole Championship.

The supporters and sponsors of the WUBC also took part at the event. Tomáš Vavruša from Play-Ball.cz and Michal Jukl from AVG Grisoft both gave an interesting speech. The manager of the home team Arnošt Nesňal invited all participants to the CEB Cup, which will prove the functionality of the City Stadium in Brno.

The exhibition game itself started with a ceremony pitch of the Mayor Roman Onderka, who also encouraged the home team to best results possible. Skill competitions in which players of both teams won were very attractive for the spectators.

On-line accreditation system

We would like to inform you about the on-line accreditation system to be used for the 4th World University Baseball Championship. The system brings advantages to both sides – participants and organizers – as the data can be updated continuously.

This system allows the participating countries to enter their athletes on-line for **individual and nominative entry forms**, plus their **travel plans**. The system does not replace the general entry forms, which still have to be sent by mail to the Organizing Committee and to the FISU Secretariat.

The login to the accreditation can be done at the website <https://event.feratel.at/fisu/>. Each national university sport federation received the login data and the event code, which are necessary to login and entry the information. If not or if there are any problems with login, please contact the Organizing Committee.

We hope the system will ease your work. The Organizing Committee prefers this way of accreditation instead of the paper entry forms.
